Animal bedding sawdust	
Sieve line, grain size (mm)	Sort (quality) sawdust (%)
> 2,00	< 10 %
2,00 - 1,60	4-10 %
1,6-1,25	7-13 %
1,25 - 1,00	25-32 %
0,60 - 0,30	20-27 %
0,30 - 0,20	4-10 %
0,20 - 0,10	4-10 %
< 0,10	< 1,5 %

Softwood Bedding Sawdust

The wood stems from natural untreated wood logs from certificated forestry

Quality tests have been implemented by the Agricultural Services (SGS Germany GmbH), annually.

As with all natural products there can be small variations in the specification values.
